

APPLIED EPIDEMIOLOGY (ONLINE) (Z152)

Graduate Certificate Program
School of Public Health

ABSTRACT

The educational objective of the proposed Post-Baccalaureate Certificate of Professional Studies in Applied Epidemiology is to train working professionals in the field of Epidemiology. This certificate provides working professionals the opportunity to learn the concepts necessary to improve their understanding of epidemiologic methods and principles and apply them in real-world practice. It covers epidemiologic study design, disease investigation and measures, identification and control of biases (information bias, selection bias, and confounding effect), effect assessment (measure of associations, interaction effect, and mediation effect), and control of epidemics.
