

COMMUNITY PLANNING, MASTER OF COMMUNITY PLANNING (M.C.P.)

Non-thesis only (capstone project required): 48 credits

Graduation requires satisfactory completion of 48 credits of course work. The 24 credits in core courses introduce students to the foundations of city and regional planning, research methods, planning process, planning history and theory, and the physical and socio-economic functions of cities and regions. Nine additional credits are required for a specialization. Specializations include community development, housing, economic development, international planning, land use / environmental planning, social planning, historic preservation, and transportation planning. A studio and internship are required. Courses are listed under URSP. The MCP program accepts up to nine credits from other graduate programs. Applicants to this program should use the CMPL program code.
